PROFESSIONAL SUMMARY

Software Engineering graduate (Pearson BTEC HND) with hands-on experience developing web, Android, AI, cybersecurity, and IoT applications. Skilled in Python, PHP, JavaScript, Java, Kotlin, MySQL, Flask, and SQLite, with experience building full-stack and database-driven applications. Developed 20+ academic and personal projects across software engineering, cybersecurity, IoT, and mobile development. Seeking a Software Engineering / Full-Stack Development opportunity to apply and further develop my technical skills.

SKILLS

- **Programming:** Python, PHP, JavaScript, Java, Kotlin, C++
- **Web & Database:** HTML5, CSS3, Flask, MySQL, SQLite, Firebase
- **Mobile:** Android Studio, Kotlin
- **AI/ML:** TensorFlow, Keras, scikit-learn, XAI
- **IT & Networking:** Windows, Troubleshooting, LAN/WAN, IP Addressing, Router/Switch Fundamentals
- **Professional:** Problem Solving, Communication, Teamwork, Quick Learning

EDUCATION

G.C.E. Ordinary Level, G.C.E. Advanced Level – ARTS Stream

Pearson BTEC HND in Software Engineering | BCAS Kalmunai Campus | Completed: 2026

SELECTED PROJECTS

- **AI SQLi Detection:** Built a cybersecurity app using Explainable AI (XAI), Machine Learning, and Python Flask for real-time web request monitoring.
- **AllNeeds E-Commerce:** Developed a full-stack PHP/MySQL platform featuring user authentication, product management, and order processing.
- **Smart Bus Tracking:** Developed an IoT real-time tracker using ESP32, GPS, Firebase, and Google Maps.
- **AI Voice Translator:** Built a multilingual translation app using speech recognition.
- **Android Development:** Created 8+ Kotlin/Android apps, including AI SQLi Detector, Tap & Go, and Smart Flashlight Pro.

LANGUAGES

Tamil (Native) | English (Professional) | Sinhala (Basic)
